

Circular Bioeconomy Days

Mark your calendar for exciting bioeconomy days – June the 25th to the 27th 2019 – and join us at Aarhus University in Foulum for discussions on how to take bioeconomy to the next level.

Central Denmark Region is turning bioeconomy into action. The region is recognised for outstanding cooperation between the region, its municipalities and world leading food and feed companies such as Arla, KMC, Danish Crown, and Biomar together with innovative SME's.

The effort is strongly supported by knowledge institutions like Aarhus University, Seges and Agro Business Park.

Participation in the bioeconomy days will provide you with practical examples of bioeconomy in action and insights in new interdisciplinary research. You will get:

- Discussions with leading European and national decision makers
- Talks from outstanding researchers and innovators in circular bioeconomy
- Visits to research facilities, companies and municipalities in Central Denmark Region, who are actively engaged in bioeconomy solutions
- Workshops with facilitated matchmaking and networking
- Opportunities to hold your own event

It is possible to participate in specific satellite events only.

European Bioeconomy Venture Forum

If you are a start-up company looking for capital, or an investor looking for investment opportunities, you might also be interested in the European Bioeconomy Venture Forum to be held in Viborg in June 19-20 2019.

For more information, please contact Agro Business Park.

BISC-E: Biobased Innovation Student Challenge Europe

The Biobased Innovation Student Challenge Europe is arranged to inspire university-level students to explore the emerging biobased workfield and develop new biobased products or processes. At the finals, the students present their ideas to a jury of experts from industry and science explaining sustainability, technical feasibility and economic viability of the innovation.

Programme

DAY 1 – JUNE 25TH - Opening of the conference "Bioeconomy in action"

11.00	Registration open
13.00	<p>Invited keynote speakers on how the existing and future policy framework, research initiatives and innovation can support the further unlocking of the potential of bioeconomy</p> <ul style="list-style-type: none">• Taking bioeconomy to the next level• The bioeconomy concept and its implications• Dual challenges: improving bioeconomy and preserving the environment – valuating environmental impacts
14.30	<p>Bioeconomy in practice</p> <ul style="list-style-type: none">• Operating bioeconomy in a municipality• The importance of circularity in the bioeconomy• Biomaterials• Building a start-up company on bioeconomy <p>Debate</p>
16.00-18.00	Visits at AU Foulum pilot plants
19.00	Dinner and networkning at Nytorv Street Food, Viborg

DAY 2 – JUNE 26TH - "New protein sources for Europe"

09.00	<ul style="list-style-type: none">• The market demand for new protein sources• Protein – from where and for what• Perspectives for disruption of European agriculture
10.30	<ul style="list-style-type: none">• The EU protein strategy• The Danish Bioeconomy Panel recommendations on protein• New concepts for green biorefinery <p>Debate</p>
14.00-16.00	Workshops
16.00-22.00	Technical tours to four different research and innovation driven companies

DAY 3 – JUNE 27TH - "Research on implementing the protein strategy"

Two parallel sessions on

1. New raw materials for protein sourcing – potential resources and feasibility
2. Developments of feed and food proteins from new resources

Scientific Organizers: Uffe Jørgensen, Centre Director. Trine Kastrup Dalsgaard, ass professor. Søren Krogh Jensen, senior researcher.

KEY ISSUES

How do we develop a circular bioeconomy, which support an overall sustainable development?

What are the prerequisite and the implications of the European protein strategy?

What are the new protein sources for Europe?
