

This topographic map illustrates a landscape planning project for the Birkeshø area. The map features contour lines indicating elevation, with labels such as +8, +14, +15, +17, +18, and +19. A prominent red dashed line outlines a proposed gravel path (grussti) that runs from the top left, through the center, and down the right side. A green dashed line marks a future heath area (fremtidig hede). Key landmarks include Birkeshø (a large blue area), Birkeshøj (a hill on the right), and Birkeshøjvej (a road at the bottom right). Other features include a parking area (p-plad), a shelter (shelters), and various mounds (mose). The map also shows existing gravel paths from Stoholm (eksisterende grussti fra Stoholm) and existing heath (eksisterende hede). A trampesti (trail) is also indicated. The map is color-coded with green for vegetation and blue for water.
